

## A few of many scenarios and interpretations of Daniel 9:24-27

- A – From Edict of Cyrus, 69 weeks (483 years), then a gap, then ½ way through 70<sup>th</sup> week Christ is executed
- B – From Edict of Cyrus, 69 weeks (483 years), then a gap until 3<sup>rd</sup> Temple when Abomination of Desolation comes at 3 ½ years in 70<sup>th</sup> week
- C – From Edict of Artaxerxes Mnemon full 70 weeks, Christ crucified at end of 70<sup>th</sup> week, no gaps, done.
- D – From Edict of Artaxerxes Longimanus 69 weeks (483 years, 173,880 days) in 445 B.C. to 6 April 32 A.D. (10 Nisan) presentation of Christ During Palm Sunday. Some debate about whether this should be 14 Nisan (10 April 32 A.D.) but doesn't "work out" to Good Friday.
